Atlanta, GA 30365

**Reference: Saad Trousdale Drive Site
Transmittal of Analytical Data**

Dear Mr. Stroud:

As you requested and pursuant to Section VI Paragraph 8 of the Administrative Order by Consent (AOC) Docket No. 92-34-C, all analytical data received since our last transmittal of November 16, 1992 are transmitted with this letter. The sample tracking forms attached provide a list of all samples collected from 10/26/92 to 11/18/92. Samples denoted by an asterisk (*) on the sample tracking forms were submitted to the laboratory for analysis. Attached with the data are the chain-of-custody/request for analyses forms, which were submitted to Specialized Assays with the samples collected between 10/26/92 and 11/18/92, and the sample tracking forms.

Please note that the sample results attached have not been subjected to full data validation procedures at this point. The quality control/quality assurance (QA/QC) validation process is not scheduled until the completion of site characterization/removal activities (see schedule in the RA/FI Phase II Work Plan). As such, these data should be considered as preliminary until DRE Remedial Services completes their QA/QC validation process in conformance with the project schedule and with the QA/QC requirements established in Section VI Paragraphs 7 and 8 of the AOC.

Respectively,
de maximis, inc.

Bennie L. Underwood
Project Coordinator
